Advice

- You can get support for all these questions at our website: www.statsgcse.com
- This paper and more are available on our site with questions that change subtly after each attempt.
- Good luck!

- 1 A survey asks people to choose their favorite fruit: apple, banana, mango, or orange.
Select the type of data.

(1 mark)

Select **one** box.

- Ordinal
 Bivariate
 Categorical

- 2 A doctor plans to classify blood pressure readings for a health study.
The tally chart below will be used.

Blood pressure	Tally
100 - 120	
120 - 140	
140 - 160	

Suggest two criticisms with this tally chart.

(2 marks)

3 A doctor is investigating whether patient lifestyle affects health outcomes.

Give an example of bivariate data that could be collected.
